

## Requirements for green tariff obtaining for PP on SWD landfill biogas

Elements of ukrainian production equipment	Incremental percentage parameter, %
Pipes for gas extraction and collection	15
Gas compressors / gas blowers	15
Condensate collection system	5
Equipment for filtering or purifying gases	10
Cogeneration units (modules) / generators with piston engine with spark ignition	45
Gas utilization systems / flares	10
<b>In total</b>	<b>100</b>

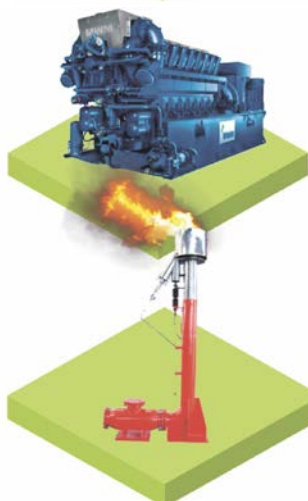

**Gas compressor** – machine for gas pressing up to excessive pressure

**Condensate collection system** – device on the gas pipeline for collecting and discharging condensate at the bottom of the pipeline system

**Equipment for filtering or purifying gases** – cleaning gases from vaporous and gaseous impurities

**Co-generator** – equipment for electric and heat power producing by biogas burning

**Flare** – system for combustion of gases
