

## Requirements for green tariff obtaining for geothermal PP

Elements of ukrainian production equipment	Incremental percentage parameter, %
Well head equipment	30
Turbogenerator	40
Main generator control panel	5
Pumps	10
Heat exchanger for heat carrier cooling	10
Automation control system	5
<b>In total</b>	<b>100</b>

**Well head equipment** – system of equipment for compressing columns stud, well seal in process of drilling

**Heat exchanger for heat carrier cooling** – device for heat transmission from one environment to another

**Turbogenerator** – direct combination of a turbine with an electric generator to convert mechanical energy into electric

**Main generator control panel** – device for control of electric generator equipment
