

| Type of Power Plant (PP)   | "Green" tariff coefficient | The minimum size of the "green" tariff, EUR /kWh with VAT |
|--|----------------------------|---|
| <i>from 01.01.2020 till 31.12.2020</i>                           |                            |   |
| Solar PP ground-mounted up to 10 MW                              | 2,09                       | 0,135   |
| Solar PP ground-mounted over 10 MW                               | 2,09                       | 0,135   |
| Solar PP, which are constructed on rooftops/facades of buildings | 2,28                       | 0,147   |
| <i>from 01.01.2021 till 31.12.2021</i>                           |                            |   |
| Solar PP ground-mounted up to 10 MW                              | 2,02                       | 0,131   |
| Solar PP ground-mounted over 10 MW                               | 2,02                       | 0,131   |
| Solar PP, which are constructed on rooftops/facades of buildings | 2,2                        | 0,142   |
| <i>from 01.01.2022 till 31.12.2022</i>                           |                            |   |
| Solar PP ground-mounted up to 10 MW                              | 1,95                       | 0,126   |
| Solar PP ground-mounted over 10 MW                               | 1,95                       | 0,126   |
| Solar PP, which are constructed on rooftops/facades of buildings | 2,13                       | 0,138   |
| <i>from 01.01.2023 till 31.12.2024</i>                           |                            |   |
| Solar PP ground-mounted up to 10 MW                              | 1,88                       | 0,121   |
| Solar PP ground-mounted over 10 MW                               | 1,88                       | 0,121   |
| Solar PP, which are constructed on rooftops/facades of buildings | 2,05                       | 0,132   |
| <i>from 01.01.2025 till 31.12.2029</i>                           |                            |   |
| Solar PP ground-mounted up to 10 MW                              | 1,81                       | 0,117   |
| Solar PP ground-mounted over 10 MW                               | 1,81                       | 0,117   |
| Solar PP, which are constructed on rooftops/facades of buildings | 1,98                       | 0,128   |
